

**Helping you to be  
safe and well  
at home.**

## Home from Hospital Sandwell Volunteers

Our Volunteers try to make the transition from hospital to home as smooth as possible so you have the best chance of making a good recovery. We work with adults of all ages and visit people at their own home or place of residence on discharge from hospital. We would normally visit you weekly for up to six weeks.

### We can:

- Arrange a food parcel if required
- Sit with you and give your family a break
- Collect prescriptions or shopping
- Offer advice and guidance
- Assist with appointments
- Stay for a friendly chat and cuppa
- Offer home safety advice
- Assist with correspondence
- Give emotional and social support
- Accompany you to the shops

\*Due to health and safety reasons, our volunteers cannot offer personal care or cleaning support

## Welcome Home Service

This service is being brought to you by Home from Hospital Sandwell in partnership with Forward Carers and is funded by the Better Care Fund Sandwell. Forward Carers is a partnership of not-for-profit organisations – our aim is to improve the physical and mental wellbeing of families, so they can stay healthier and happier together, for longer.
